Value of the Term – Resilience

**‘Let us not grow weary in well-doing, for in due time we will reap a harvest if we do not give up.’
Galatians 6:9**

Definition: Resilience is the quality of being able to adapt to stressful life changes and “bouncing back” from hardship. Resilience is a response to tragedy, crisis, or other life-altering changes that allows us to move on despite the loss. Showing resilience does not mean that a person is unaffected or uncaring about the life change. Resilience is the human heart’s ability to suffer greatly and grow from it.

Questions: What does it mean to be resilient? What makes resilience hard? Who helps us? What thoughts make resilience easier or harder? Can anything positive come out of something hard?

Key Bible Character – Key Bible Character - Paul who spoke out for the gospel in difficult and different situations. This included imprisonment, persecution and even being shipwrecked. Despite all this, he endured his hardships knowing they were temporary and served a purpose in making him more like Jesus.

Key Bible verse: ‘Let us not grow weary in well-doing, for in due time we will reap a harvest if we do not give up.’ Galatians 6:9
